

# Episode #107 of The Maryland Construction Network Podcast

Show Title: [Getting Clarity on What to Do About the Future.](#)

In this episode of The Maryland Construction Network Podcast, Steve Morris discusses the concept of scenario planning. He shows why scenario planning should be implemented within your company to prepare for, and address, unexpected occurrences. Yes, it is possible to be better prepared for the unknown!

## Topics Discussed:

- We are now over six months into the pandemic, what are you seeing business owners should be doing?
- How can busy business owners get time to do scenario planning?
- Could you tell us a little more about what scenario planning is?
- Having developed scenarios, what should you do to prepare your business?
- What other steps might be needed in planning for these scenarios?
- How can you help business owners think about the future and prepare for what it might bring?
